They have unsurpassed real-world experience operating in adverse environments and high risk situations and excel in passing on that knowledge through realistic, dynamic training scenarios. The day at the 7,000-acre tactical training center in Moyock will start with a mission brief and tour of the facility. You and your team will then each get behind the wheel of a high-performance squad car with one of the elite instructors who will guide you through the high-speed twists and turns of the challenging three-mile driving track. In the live-fire exercises, you'll engage targets in a variety of tactical scenarios with a range of weapons including Glock 17 pistols, AR-15 and AK-47 semiautomatic rifles and even a .50 caliber Serbu sniper rifle. Finally, after your trainers demonstrate how to shoot, move and communicate as a cohesive team - you'll put it all together as you and your friends execute a simulated tactical mission using Airsoft and paintball weapons. The one-day package also includes a tour of the facility, one night's accommodation, and three meals.
